Health Coverage for All Children: Kansas

October 2009

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Kansas' Children:

- 66,000 children are uninsured (9.0% of all children).*
- 212,149 children are enrolled in Medicaid.**
- 51,162 children are enrolled in the Children's Health Insurance Program (CHIP).***

How affordable is health coverage for Kansas' children?†

- CHIP eligibility is up to 200 percent of poverty (\$44,100 for a family of four).
- Medicaid eligibility is 150 percent of poverty (\$33,075) for children 0-1, 133 percent of poverty (\$29,327) for children 1-5, and 100 percent of poverty (\$22,050) for children 6-19.

How simple are enrollment procedures in CHIP and Medicaid for Kansas' children?

- Simplification procedures:
 - 12-month continuous eligibility
 - Presumptive eligibility—which allows children to see a doctor while their application is still being processed
 - No waiting period
 - No face-to-face interview
 - No asset test
 - Joint application
 - No waiting period
- Barriers that remain:
 - No administrative verification of income—the state requires parents to provide proof of income before a child can get health coverage

Do children in Kansas' CHIP program receive the same comprehensive benefits as children in Medicaid?

- Yes. Kansas provides children in its CHIP program the same comprehensive health and mental health coverage (through the Early and Periodic Screening Diagnostic and Treatment (EPSDT) benefit) that all children in Medicaid receive.

*Despite difficult economic times, **Kansas was one of 23 states that took steps to improve health coverage for children in the last year.** In 2009, Kansas expanded CHIP eligibility from 200 to 250 percent of poverty.‡*

Call your Member of Congress and tell them: *Health reform needs to make sure that ALL children in Kansas and America have health coverage that is affordable, comprehensive, and simple. A pound sign (#) designates Members who serve on one or more of the committees that developed the health reform bills being considered in the House and Senate.*
