Health Coverage for All Children: Nevada

October 2009

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Nevada's Children:

- 124,000 children are uninsured (17.8% of all children). *
- 144,997 children are enrolled in Medicaid. **
- 38,592 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for Nevada's children? †

- CHIP eligibility is up to 200 percent of poverty (\$44,100 for a family of four).
- Medicaid eligibility is 133 percent of poverty (\$29,327) for children 0-5 and 100 percent of poverty (\$22,050) for children 6-19.

How simple are enrollment procedures in CHIP and Medicaid for Nevada's children?

- Simplification procedures:
 - 12 month continuous enrollment for children enrolled in CHIP only
 - No face-to-face interview
 - No asset test
- Barriers that remain:
 - No joint application
 - 6 month waiting period
 - No 12 month continuous eligibility for children in Medicaid
 - No presumptive eligibility—which forces children to wait until their application is processed before they can see a doctor
 - No administrative verification of income—the state requires parents to provide proof of income before a child can get health coverage

Do children in Nevada's CHIP program receive the same comprehensive benefits as children in Medicaid?

- Yes. Nevada provides children in its CHIP program the same comprehensive health and mental health coverage (through the Early and Periodic Screening Diagnostic and Treatment (EPSDT) benefit) that all children in Medicaid receive.

Call your Member of Congress and tell them: *Health reform needs to make sure that ALL children in Nevada and America have health coverage that is affordable, comprehensive, and simple. A pound sign (#) designates Members who serve on one or more of the committees that developed the health reform bills being considered in the House and Senate.*
