Health Coverage for All Children: North Dakota

October 2009

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for North Dakota's Children:

- 13,000 children are uninsured (8.8% of all children).*
- 36,091 children are enrolled in Medicaid.**
- 7,617 children are enrolled in the Children's Health Insurance Program (CHIP).***

How affordable is health coverage for North Dakota's children?†

- CHIP eligibility is up to 160 percent of poverty (\$35,280 for a family of four).
- Medicaid eligibility is 133 percent of poverty (\$29,327) for children 0-5; 100 percent of poverty (\$22,050) for children 6-19.

How simple are enrollment procedures in CHIP and Medicaid for North Dakota's children?

- Simplification procedures:
 - 12-month continuous eligibility
 - No face-to-face interview
 - No asset test
 - Joint application
- Barriers that remain:
 - 6 month waiting period
 - No presumptive eligibility—which forces children to wait until their application is processed before they can see a doctor
 - No administrative verification of income—the state requires parents to provide proof of income before a child can get health coverage

Despite difficult economic times, North Dakota was one of 23 states that took steps to improve health coverage for children in the last year. In 2009, North Dakota expanded CHIP eligibility from 150 to 160 percent of poverty.‡

Call your Member of Congress and tell them: *Health reform needs to make sure that ALL children in North Dakota and America have health coverage that is affordable, comprehensive, and simple. A pound sign (#) designates Members who serve on one or more of the committees that developed the health reform bills being considered in the House and Senate.*
