

Children Need Real Health Care Reform Now! Let's Fix the Health System for Children Now!

**JOIN THE CHAMPIONS FOR CHILDREN'S HEALTH
STROLLER BRIGADE AT THE NATION'S CAPITOL
ON NOVEMBER 4TH!!!!**

***Demand That Children Be Better – Not Worse – Off After Health Care Reform
Millions of Children's Lives Depend on REAL Child Health Reform NOW***

JOIN US IN STANDING TOGETHER FOR CHILDREN: Congress is debating health reform legislation that could leave millions of children worse rather than better off and fails to fix bureaucratic, unfair barriers to care. This must be changed now!

WHAT WE ARE DEMANDING: Congress and the President must support changes that provide comprehensive, affordable, accessible care for all children no matter where they live. Changes must build on what works in the system and fix what doesn't work for children now.

ACTION YOU CAN TAKE: Join children, parents, grandparents and champions for children in a "stroll" to the Capitol on Wednesday, November 4th at 10 am to ensure that our children are not left behind in health care reform.

You can also join stroller brigades in cities across the country November 6th through 8th and log onto take action now - no matter where you live - by visiting www.childrensdefense.org/strollerbrigade
