

Children Need Real Health Care Reform Now!

All religious traditions and teachings agree that *all children* are sacred gifts. We are entrusted by our Creator to care and nurture their physical, mental and spiritual health.

Children need real health care reform now.

Lack of access to even basic health services can impact children's educational attainment and social development, preventing them from reaching their full potential.

Members of Congress are debating health care reform now.

America's moral health is determined by how we treat our children.

How Can I Help?

Call the Capitol switchboard and ask to speak with your Representative and Senators: **(202) 224-3121**

What Should I Say?

Introduce yourself, state that you are a constituent, and tell them the name of your faith community.

Ask your Members of Congress to support health reform legislation that guarantees children affordable, comprehensive, simple and seamless coverage.

For Example:

“Health coverage in any final health care reform bill must guarantee all children the comprehensive health and mental health care they need and be affordable and simple to get and keep. No children should end up worse off after health reform than they are now.

Can I count on your support?”

Now Is the Time to Take Action!
