Available at <http://www.census.gov/popest/states/asrh/files/SC-EST2009-AGESEX-RES.csv>. Calculations by Children's Defense Fund.

The percentage and number of uninsured children in the United States are from the most recent year of data and represent coverage in 2009. NOTES: The estimated percentage of uninsured children in each state is an

average of the percentage of uninsured children in that state over three years. Three-year averages are used because of small sample sizes in some states. The average percentage of uninsured children in this table is based on the 2008, 2009 and 2010 ASEC surveys. The estimated number of uninsured children in each state is calculated by applying that average percentage to the most recent Census estimate of children younger than 19 in the state.
