Children in Foster Care

Numbers - December 2005

- 15,119 children in out-of-home placements under the supervision of the Georgia Department of Human Services, Division of Family and Children Services. Of these children, 2,682 were placed with kin.

Preferences

- State policy requires that kin be considered first when an out-of-home placement is sought for a child under the Department's care if the relative caregiver can provide safe environment for the child and meet all the state's child protection standards.

Kinship care licensing

- No separate licensing program for kinship foster parents. Kin must meet the same licensing standards and requirements and receive the same foster care payment rate as non-kin foster parents.
- Any person applying for foster care licensing must complete 30 hours of pre-serve training; 15 hours in-service training required annually for license renewal.

Subsidized guardianship programs

- Relative Care Subsidy Program for children transferred from state custody to the permanent custody of an approved relative caregiver and for whom the court has issued a non-reunification order. Caregivers' homes are reviewed annually by the agency and every 3 years by the court.
- Supported by Temporary Assistance to Needy Families (TANF)

Training

- GA Division of Aging Services Kinship Care Specialists have become certified foster care trainers to provide one-on-one training to grandparents. Trained grandparents receive 100% of foster care daily stipend.
