

Health Coverage for All Children: West Virginia

February 2011

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for West Virginia's Children:

- 23,000 children are uninsured (5.6% of all children). *
- 196,993 children are enrolled in Medicaid. **
- 37,539 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for West Virginia's children? †

- CHIP eligibility is up to 250 percent of poverty (FPL) (\$55,875 for a family of four).
- Medicaid eligibility is 150 percent of poverty (\$33,525) for children 0-1; 133 percent of poverty (\$29,726) for children 1-5; 100 percent of poverty (\$22,350) for children 6-19.

How simple are enrollment procedures in CHIP and Medicaid for West Virginia's children?

- Simplification procedures:
 - 12-month continuous eligibility
 - No face-to-face interview
 - No asset test
 - Joint application
 - Administrative verification of enrollment at renewal—so parents do not have to provide proof of income for renewed enrollment.
- Barriers that remain:
 - 3-month waiting period
 - No presumptive eligibility—which would allow children to see a doctor while their application is still being processed
 - No administrative verification of income at enrollment—the state requires parents to provide proof of income at enrollment before a child can get health coverage
