

Health Coverage for All Children: Hawaii

February 2011

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Hawaii's Children:

- 14,000 children are uninsured (4.7% of all children). *
- 92,841 children are enrolled in Medicaid. **
- 27,256 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for Hawaii's children? †

- Children's eligibility is up to 300 percent of poverty (\$67,050 for a family of four) through Hawaii's Medicaid expansion program (which includes CHIP).

How simple are enrollment procedures in CHIP and Medicaid for Hawaii's children?

- Simplification procedures:
 - Administrative verification of income
 - No waiting period
 - No face-to-face interview
 - No asset test
- Barriers that remain:
 - No 12-month continuous eligibility
 - No presumptive eligibility—which forces children to wait until their application is processed before they can see a doctor
