

Health Coverage for All Children: Illinois

February 2011

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Illinois' Children:

- 259,000 children are uninsured (7.7% of all children). *
- 1,454,385 children are enrolled in Medicaid. **
- 329,104 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for Illinois' children? †

- CHIP eligibility is up to 200 percent of poverty (\$44,700 for a family of four), and Illinois has a state-funded expansion for all children above that income level.
- Medicaid eligibility is 133 percent of poverty (\$29,726) for children 0-5, 100 percent of poverty (22,350) for children 6-19.

How simple are enrollment procedures in CHIP and Medicaid for Illinois' children?

- Simplification procedures:
 - 12-month continuous eligibility
 - No asset test
 - No face-to-face interview
 - Presumptive eligibility so children do not have to wait for their application to be processed before seeing a doctor
 - Joint application
 - Administrative verification of income at renewal
- Barriers that remain:
 - 12-month waiting period
 - No administrative verification of income at enrollment—the state requires parents to provide proof of income before a child can get health coverage
