

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Minnesota's Children:

- 81,000 children are uninsured (6.1% of all children). *
- 389,593 children are enrolled in Medicaid. **
- 5,164 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for Minnesota's children? †

- Children's eligibility is 275 percent of poverty (\$61,463 for a family of four) for children 0-19 through Minnesota's Medicaid expansion program (includes CHIP).

How simple are enrollment procedures in CHIP and Medicaid for Minnesota's children?

- Simplification procedures:
 - No face-to-face interview
 - No asset test
- Barriers that remain:
 - No 12-month continuous eligibility for children
 - No presumptive eligibility—which forces children to wait until their application is processed before they can see a doctor.
 - No administrative verification of income—the state requires parents to provide proof of income before a child can get health coverage.
 - 4 month waiting period for children under the Medicaid 1115 waiver

Do children in Minnesota's CHIP program receive the same comprehensive benefits as children in Medicaid?

- Yes. Minnesota is one of 14 states (plus the District of Columbia) that has used CHIP funding to cover all children eligible for CHIP and Medicaid under one program. As a result, children in CHIP in these states receive the same comprehensive health and mental health coverage (through the Early and Periodic Screening Diagnostic and Treatment (EPSDT) benefit) that all children in Medicaid receive.
