

Health Coverage for All Children: New Hampshire

February 2011

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for New Hampshire's Children:

- 15,000 children are uninsured (4.7% of all children). *
- 85,405 children are enrolled in Medicaid. **
- 10,630 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for New Hampshire's children? †

- CHIP eligibility is up to 300 percent of poverty (\$67,050 for a family of four).
- Full cost CHIP buy-in for children between 301- 400 percent of poverty.
- Medicaid eligibility is 185 percent of poverty (\$41,348) for children 0-19.

How simple are enrollment procedures in CHIP and Medicaid for New Hampshire's children?

- Simplification procedures:
 - No face-to-face interview
 - No asset test
 - Joint application
 - Presumptive eligibility for children in Medicaid
- Barriers that remain:
 - No 12-month continuous eligibility
 - 6 month waiting period
 - No administrative verification of income—the state requires parents to provide proof of income before a child can get health coverage
 - No presumptive eligibility for children in CHIP-- which forces children to wait until their application is processed before they can see a doctor
